REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art has failed to suggest either singly or in combination a novel powered seat assembly. The applicant has disclosed a bracket secured to an intermediate location on a base plate, a slot defined in an extending portion of the bracket defining a passage therethrough for a lead screw; and a spacer bushing supported upon the lead screw and adhering against a face of the bracket opposite a pivotally secured seat back.. The spacer bushing absorbing tensile loading forces applied axially along the lead screw and in a direction towards the seat back in order to prevent movement of the lead screw in and out of a motor gear box.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference Nos. 5,280,999, 5,597,205, and 5,884,970 show features of the claimed invention.
